

How to resolve an error when clicking on Keet in Insight GO

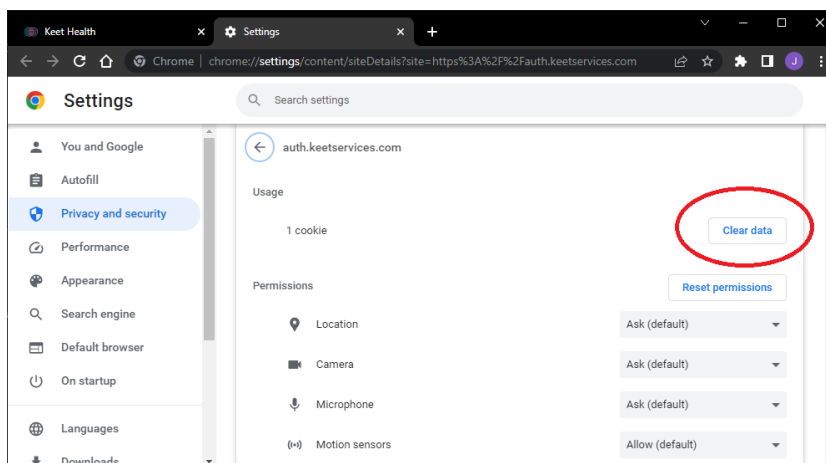

1. While the error is on the screen click on the lock next to the web address.

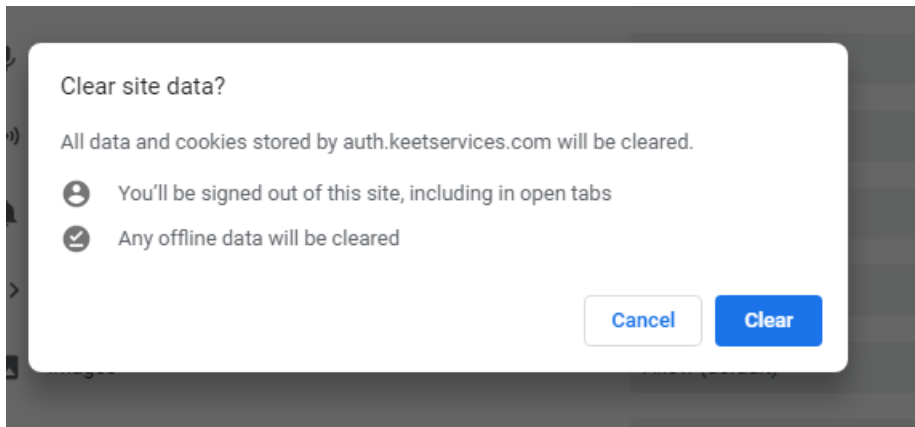

2. A menu will pop down, choose "Site Settings" it will open a settings tab.

3. In the tab that opened click on "Clear Data".

4. A confirmation window will open click the “Clear” button.

5. Close the web browser then reopen and log back in.
